

YOU SAVED ME

V1

O Lord, most high in Heaven, Who created all we see
There is nothing I may face too difficult for Thee
At times my faith it seems so strong and other times so
small
Yet through it all I still believe, You're Sovereign over all

V2

Once a slave to all my sin, I chose not to believe
Then You opened up my eyes, came and rescued me
I don't deserve such favor, Lord, and such amazing grace
And one day in Your presence I will see You face to face

CH

You saved me, gave Your life away
You saved me, a debt I can't repay
You saved me, on the Cross the work was done
And I know You'll complete what You've begun

V3

This world is quickly passing by and one day it will cease
So I will set my eyes on You, my Joy, my Rock, my Peace
May I be in Your mighty hands, just like potter's clay
Change me to be more like You until that final day

BR

Nothing I can do, nothing I can say
Could make You love me more than You do today
Rescued from the dark, captive now set free
And I will sing this song for all eternity
